How to Look After a Dinosaur Egg

- 11** If you have found a dinosaur egg, you need to act quickly and carefully. If you don't, you might end up with an angry baby dinosaur on your hands.
- 39** First, you need to find out which kind of dinosaur you will be raising. Different dinosaurs eat different things so make sure that you buy the correct kind of food for your new friend.
- 72** Next, put the egg somewhere warm. Wrap it in blankets and keep it under a warm lightbulb at all times so that the baby does not get cold.
- 101** Keep your eyes open... your new friend is on its way.

Quick Questions

1. Number these commands from 1 to 3 to show the order they appear in the text.
- Keep your eyes open.
 - Find out which type of dinosaur it is.
 - Put the egg somewhere warm.

2. Find and copy two ways that you can keep the egg warm.

3. Why might the baby dinosaur be angry if you are not careful?

4. Find and copy two adverbs used in the text to describe how you must act when you have found a dinosaur egg.
