Science: We will be exploring how different animals grow compared to humans.

When they went to the seaside to visit Gran, Lenny made sure there was an extra bucket and spade for Duck. They paddled together and built sandcastles.

When it was time to go home, somewhere in the rush of packing, Duck got lost.

They searched Gran's house, upside down and inside out. They even looked all along the beach but they couldn't find Duck anywhere.

Lenny tried hard to be brave, but he missed Duck very much. Even though he had other lovely toys, none of them was the same as Duck.

Time passed and Lenny played with lots of different toys. He nearly forgot about the little duck with the orange beak and bright button eyes.

Nearly... but not quite.
